The RailsBridge Boston Workshop is a free 1.5-day course to teach people of underrepresented groups in tech with no prior experience the skills to develop a web application using Ruby on Rails.

We are a group of seasoned software developers with a passion for promoting diversity in technology. We all work as volunteers in this effort to provide people of all backgrounds with a solid introduction to concepts, tools, and techniques of Rails programming, as well as an entry point into the active and supportive Boston Ruby community.

Since August of 2012, we have held over 15 workshops and taught over hundreds of students.

Check out our video at <http://bit.ly/rbbteaser> to see what our workshop is like!

Here is a breakdown of how the sponsorship funds are spent:

### Food and Beverages

Our expected class size is 100 people: 80 students and 20 teaching assistants. We provide dinner on Friday and breakfast and lunch on Saturday. This typically results in 25-30 large pizzas, salads, sandwiches, sodas, and several gallons of coffee, costing \$3,000-4000.

### Saturday Post-Workshop Celebration

After students have concluded the workshop, we gather at a nearby restaurant to celebrate a successful program. This is also a key opportunity for students to network with each other and with the workshop volunteers and sponsor representatives. We typically cover the first round of drinks and appetizers which cost around \$1,000.

Some of our previous sponsors include the following:

thoughtbot

PayPal

ActBlue

Visible Measures

Launch Academy

General Assembly

Terrible Labs

Digital Lumens

Yesware
